

Congratulations on 200 Truckloads!

	200 Truckloads of plastic have traveled from Merrick, Inc., to Trex Company for recycling from 2004-2013. Trex uses the material to make composite lumber for patios and decks.

Total	200!

The plastic recycling program provides jobs for at least 25 clients and 6 staff daily at Merrick!

From October 2003 to May 2013, Merrick produced 6,000 bales of plastic and kept over 7.9 million pounds of material out of area landfills and incinerators!

Lined up end-to-end, 200 trucks would stretch 2.5 miles, from Merrick down County Road D all the way to Maplewood Mall!
