

CLIENT HEALTH SCREENING CHECKLIST

Has the person attending Merrick, Inc., had any of the following symptoms since their last day at the program that cannot be attributed to another health condition?

- Fever (100.4 degrees or higher), feeling feverish?
- Chills?
- A new cough?
- Shortness of breath
- A new sore throat
- New muscle aches?
- New headache?
- New loss of smell or taste?

If one or more of these signs or symptoms are present, you agree to notify Merrick, Inc., and not have the person attend the program until permitted by their physician/clinic. To get more information on when and where to get tested go to <https://mn.gov/covid19/>. If it is determined that a client with the signs and symptoms of Covid-19 will not be tested, they can return to the program after these three conditions have been met: (i) no fever for at least 72 hours (that is, 3 full days of no fever without the use of medicine that reduces fevers); (ii) respiratory symptoms have improved; and (iii) at least 10 calendar days have passed since their symptoms first appeared.

Clients that may have come in contact with someone who has a confirmed case of Covid-19 are to call the MN Department of Health at 651.201.3920 to determine if they can attend the program.

Clients with a lab test confirming they have Covid-19, or a member of their household has tested positive for Covid-19, are not to report to the program for 14-calendar days starting from the test result date.
