## Our History

Established in 1964, with the support of the Christ Child Society, we opened for services on the East Side of St. Paul in the Merrick Community Center, named after Mary Virginia Merrick. At that time, we served fifteen young adults with developmental disabilities that lived at home and could not secure adequate services from the public schools.

Today, we offer a variety of meaningful work options, life enrichment activities, and therapeutic programs to nearly 400 adults with intellectual or developmental disabilities at our two specialized sites in Vadnais Heights.
